**CREATING INSPIRATIONAL KITCHENS SINCE 1986**

Over the last 30 years we have built an enviable reputation for not only creating beautiful, hand crafted kitchens here in the UK but by offering the kind of customer service that others can only aspire to.

The collection you are looking at here is...

...other collections include:

ENGLISH  REVIVAL

All our kitchens are constructed using traditional materials and methods with an obsessive attention to detail. We are confident that you will not find comparable kitchen's built quite like this.

That's because our way, we believe, is the best way and that way is the Mereway.

We recognise that we have a vital role in helping to protect the local and global environment and are proud to use a wide range of sustainable products throughout the production process. These include timbers that have been FSC certified or Pan European approved, or have originated from managed forests.

# A coffee is just a coffee, right?

Well for me, there's the 'run of the mill' coffees and then there's that 'special' coffee. The one that tugs and plays with all your senses.

The coffee you fall in love with.

An instant coffee is just that, instantly made and instantly forgotten.

But a speciality coffee? Well that's just it, isn't it? It's just that little bit exclusive because it's just that little bit special.

It's a coffee that rises above the mundane and fulfils all your expectations. In short, it's what a good coffee should be.

Now, what has this to do with kitchens?

Try replacing the word coffee in the above with the word kitchen and maybe you'll see where I'm coming from!

There are kitchens and then there are Cucina Colore kitchens.

*Call me 'hard to please'...*

Cucina Colore is inspired by cosmopolitan culture and embraces the very finest in contemporary living.

Whether my taste is for a bold statement look or a soft natural scheme, Cucina Colore gives me the ultimate in design flexibility through a range of interchangeable cabinet finishes, door colours and handles, all designed to work in complete harmony to help me create my own unique designer kitchen.

*...but I like the Mereway of doing things.*

*Call me 'passionate'...  
But I like the Mereway of doing things*

*Penelope Jordan*  
Award winning  
textile artist

The Cucina Colore designers are very passionate about good design.

I share that passion and like them, these are the words that inspire me .....

My name is Penelope Jordan and I would like to share my love of good art and design to show you how Cucina Colore through its range of interchangeable cabinet finishes, door colours and handles, offers you the ultimate design flexibility and brings colour, texture and drama to the one room in the house that can be truly called the heart of the home...

... the kitchen

Penelope  
Jordan

[www.penelopejordan.com](http://www.penelopejordan.com)

Penelope's unique and beautiful art focuses on using a variety of textiles in a controlled repetitive order, exploring different ways of placing and folding shapes in a structured space, at the same time combining contrasting colour combinations to create a harmonious, engaging piece of art that is three-dimensional, tactile and pleasing to the eye.

# Choosing from so many exciting options can appear a little overwhelming. So lets make it easier

options can appear a little overwhelming.

Start by breaking the kitchen down into defined sections. Here I have used the Segreto door style and broken it down into three sections (a), (b) and (c). Now lets keep it simple by using one colour and one texture.

Now let's try different textures finishes and colours. What about combining two Painted Veneers and Painted Gloss.

...Now lets add a new colour with a Plain Silk finish in section (a) to complement the Pergamon Gloss.

...Or we could combine a Plain Silk and two contrasting Gloss finishes.

...Keeping the Graphite Plain Silk where it is, lets see what it would look like by including a Woodgrain finish in section (b).

...Now let's use one of my favourite colours. A Painted Priory Blue complemented by a Grey Bardolino and a Painted Veneer finish.

As you can see, your options are endless. Take your time, have fun and in no time at all you will have created a look that is unique to you and a kitchen that captures the essence of contemporary style living.

# Everybody wants an island in their kitchen, don't they?

Let me show you some of my favourite designs.

Islands can be used as both a design feature and a functional additional to your new kitchen. The most successful islands combine stunning design with function, providing a base for working, storage and relaxation.

They can make a statement and be the focal point of a room, especially if they are large or have an unusual shape. Add some individuality with your island by mixing colours and materials along with iconic feature units.

Choosing a curved island creates a great focal point in your kitchen. This island has a feature glazed unit so you can store those items you wish to put on display.

To finish this island off it has a mirrored plinth to give the effect the island is floating.

This small yet functional island has it all, open display units to store everyday kitchen essentials within easy access, practical pan drawers and cooking area.

Keeping with the curved island, here we have feature curved end shelves to store everyday kitchen essentials within easy access.

This large island incorporates plenty of storage space along with the practicality of cooking and food preparation and also combines a seating area.

This feature island provides symmetrical storage with matching worktop and end panels that creates a true focal point.

Like the island above, this island has plenty of storage that combines a seating area around the cooking space which provides an intimate surrounding.

You can add a little extra style by having these open display units so you can put items on display within your kitchen.

If you do not have the space to accommodate a full island into your kitchen, have you ever considered a peninsula - an extension to your current base units that incorporates a seating area giving you the same practicality of an island with a smaller footprint.

This peninsula incorporates a small seating space for an intimate kitchen.

Choose your look... or a combination of looks.

## 1 Matching Cabinets

A selection of our worktop finishes are available in cabinets allowing you to create a seamless coordinated look.

## 2 Butchers Block Edging

Butchers block adds the perfect finish to woodgrain worktops that creates an authentic impression of a solid piece of timber.

## 3 End Panels

These panels are used to create a 'goal post' effect by encasing the units to provide a truly contemporary kitchen.

## 4 Framing

End panels can be used to encase units, this creates a uniformed and contemporary style for any modern kitchen.

## 5 Upstands

A cost effective alternative to tiling. You can mix and match to create the perfect combination of colour and material in your kitchen.

## 6 Wall Panelling

A contemporary alternative to tiling, a feature wall can be designed to create a seamless look - which is easier to maintain with minimal hassle and up keep required.

## 7 Cut & edged panels

Panels can be cut and edged to create breakfast bars and provide a practical element to a kitchen.

## Durability

The laminate surfaces are designed to withstand the stresses & strains of daily life, due to their high resistance against scratches and impact. Compared to real timber, our worktops are less prone to fading and changes after being exposed to direct sunlight. They are incredibly easy to look after, and unlike solid wood or stone surfaces, require minimal maintenance or repair.

## Stain Resistance

To remove those hard stains such as red wine and coffee, simply use a damp cloth & mild surface cleaner to easily remove in minutes.

## Impact Resistance

Every now and then, items stored away in cupboards can fall onto the surfaces. Our high density worktops are designed to withstand the impact of such items.

## Heat Resistance

UrbanTop worktops have been rigorously tested against surface temperatures of up to 180 degrees and are designed to cope with the daily demands of a busy kitchen. We do however recommend the use of heat deflector plates above all built under ovens and dishwashers to protect the underside of the worktop surface.

## Lightfastness

Unlike real timber, our laminate worktops are significantly less prone to fading and changes in colour caused from exposure to sun light.

## Butchers Block

To create an authentic 'real wood' look UrbanTop have developed an 'End Grain' effect edging we call Butchers Block that is applied to the worktops at both ends giving the impression of real timber.

## 5 Year Guarantee

We're so confident that you won't be disappointed with the quality of our worktops that they come with a 5 year guarantee!
